Competent Families

Research Program 2011-3
On family support in Degerfors och Karlskoga

Et samverkansprojekt mellan Karlskoga och Degerfors kommuner och Örebro universitet.

OREBRO UNIVERSITY

Key Concepts

All for Equity

OREBRO UNIVERSITY

- **Social determinants of health** – “the social conditions in which people live and work”
- **Health equity** - “the absence of unfair and avoidable or remediable differences in health among populations or groups defined socially, economically, demographically or geographically.”

OREBRO UNIVERSITY

Community is a setting

- Where diversity and local character is celebrated
- Where everyone is valued equally, regardless of race, age and gender
- Where people are responsible citizens and support each other
- With ready access to the necessities of everyday life
- Where people like to be
- Which is safe and environmentally sound

OREBRO UNIVERSITY

Community is a setting

- Which provides healthy housing
- With good transport links
- Which has good opportunities for play and recreation
- BUT
- Community is a complex system of interrelationships woven across social difference, diverse histories and cultures, determined by political and social trends

OREBRO UNIVERSITY

Public Health

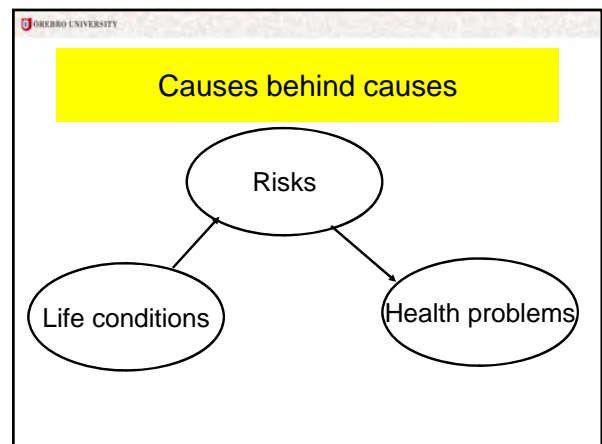

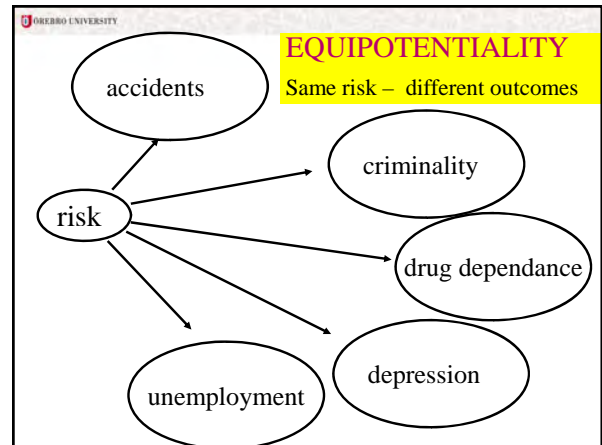

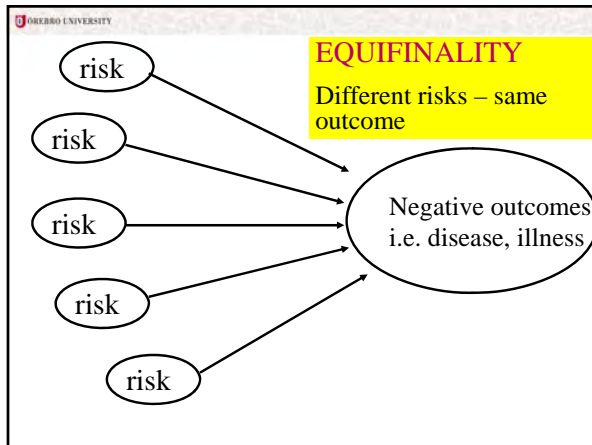

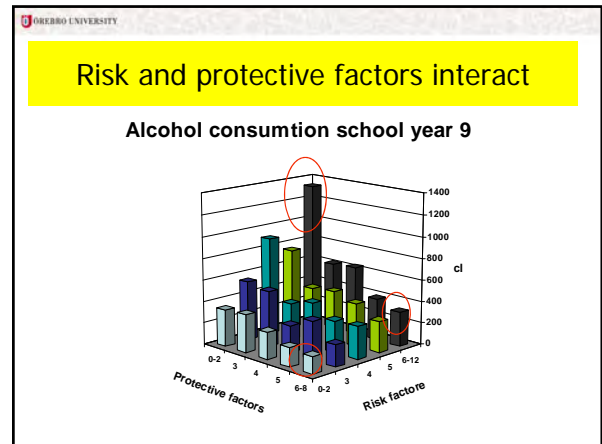

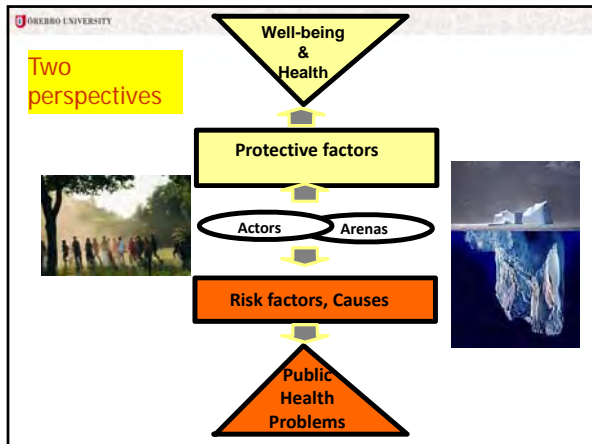

The art and science of preventing disease, promoting health, and prolonging life through organized efforts of society

- Defined in the Acheson Report 1987

OREBRO UNIVERSITY

For me health is

Talk with your neighbour

Population Health Perspective - Determinants of Health

- Income & social status
- Gender
- Education
- Employment & working conditions
- Physical environment
- Biology & genetic endowment
- Personal health practices & coping skills
- Healthy child development
- Health & social services
- Culture
- Social support networks
- Social environment

Knowledge for action

- Good intentions is not enough
- Evidence-based interventions is needed
- Knowledge from controlled trials under optimal conditions
- Knowledge is possible from different kinds of practice-based evaluations
- Reflection over practical experiences

Public Health at the Crossroads
Achievements and progress
Robert Dingwall
Neil Smith

Challenged by the complexity of our dynamic reality

Knowledge

- Theoretical-scientific knowledge
= to know **Making PRIORITIES**
- Practical-productive knowledge
= to be able **Having COMPETENCE**
- Knowledge as practical wisdom
= to be wise

EVIDENCE-BASED PRACTICE

(Haynes et al, 2002)

The Swedish Public Health Policy

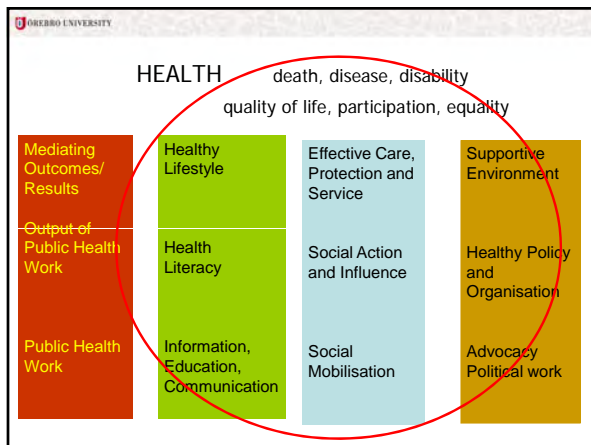

- Health is a basic human right and equity in health is an overarching goal
- Prevention is in most cases better than cure or care
- A public health policy must focus on the determinants of health rather than health outcomes
- Most determinants of public health are found outside the health and medical sector

Public health objective domains

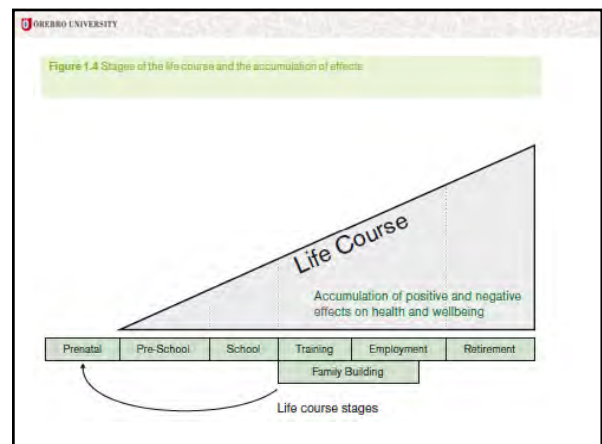

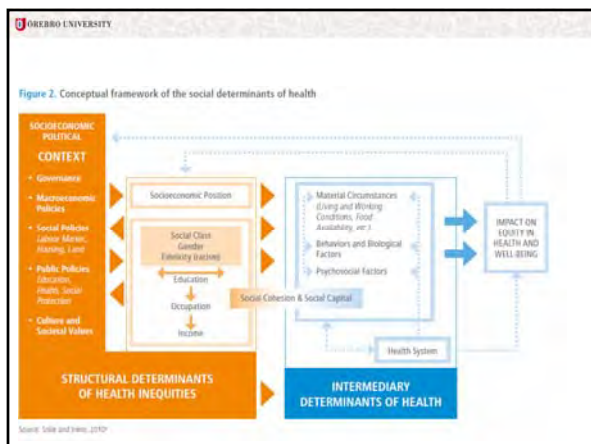

- 1. Participation and influence in society
- 2. Economic and social prerequisites
- 3. Conditions during childhood and adolescence
- 4. Health in working life
- 5. Environments and products
- 6. Health-promoting health services
- 7. Protection against communicable diseases
- 8. Sexuality and reproductive health
- 9. Physical activity
- 10. Eating habits and food
- 11. Tobacco, alcohol, illicit drugs, doping and gambling

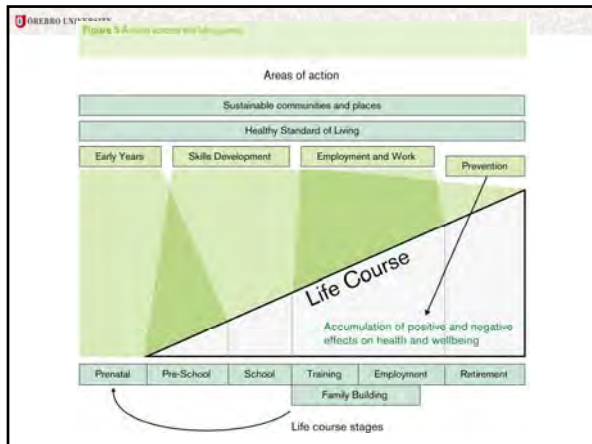

The River – a human being has fallen into the river

- Rescue Medical Care
- Construct a Bridge Prevention
- Learn how to swim Health Promotion
- Change the river Community/Physical Planning

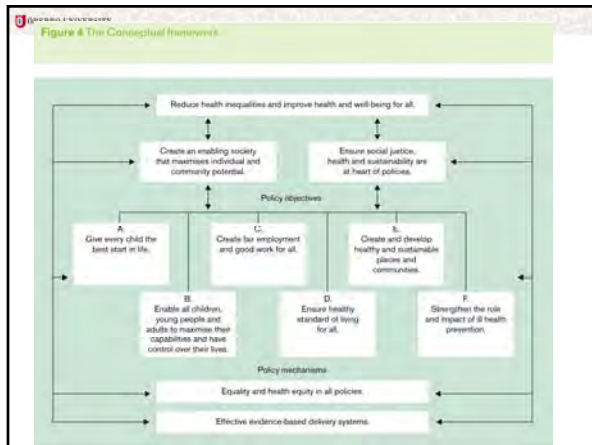

WHO Commission on Social Determinants of Health

”Allocation of resources to health care is not a way of dealing with health problems according to the researchers, but through building a fair society”

Sir Malcolm Marmot 2011

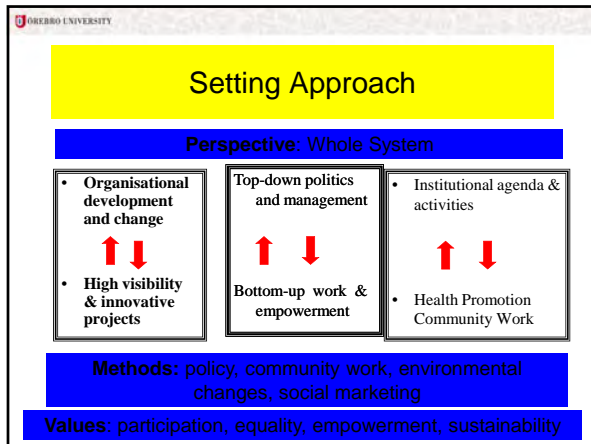

Policy Objective A
Give every child the best start in life

Policy Objective B
Enable all children, young people and adults to maximise their capabilities and have control over their lives

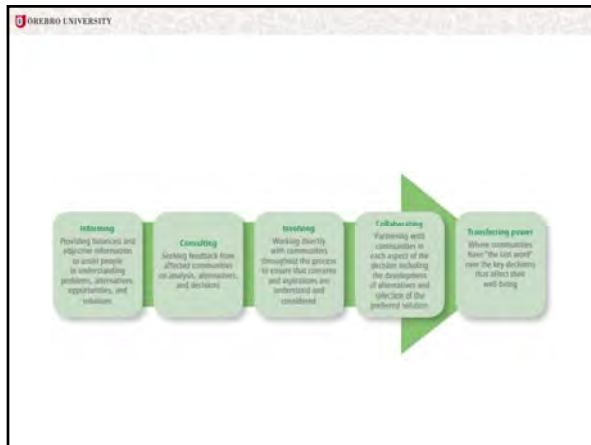

Policy Objective E
Create and develop healthy and sustainable places and communities

Working with communities – organization, development and social action

- Typologies:
- Locality development, social planning, social action (Rothman)
- Community development, political action, social planning (Twelvetrees)

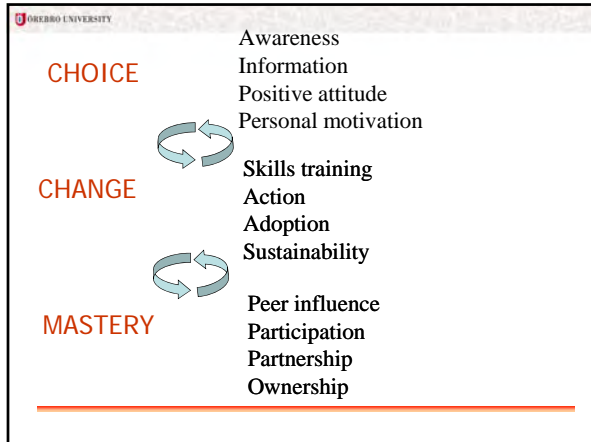

- Developing community programs for development and social action**
- Planning and negotiating entry
 - Getting to know the community
 - Working out what to do next
 - Making contacts and bringing people together
 - Forming and building organizations
 - Helping community clarify goals and priorities
 - Keeping the organization going
 - Dealing with friends and enemies
 - Leaving and ending

- Social capital**
- Bonding -
 - Family and close friends
 - Lokal personal relations
 - Bridging -
 - Individuals in different social groups in the local society
 - Horizontal type of power - cooperation will give more power
 - Linking -
 - Individual and group contacts with institutions and public agencies
 - Vertikal type of power

- Civil society is of importance for public health**
- **Voice:** advocacy and political work
 - **Social capital:** May develop joint activities and meeting places
 - **Human capital:** May contribute to knowledge and strengthen the involvement of its members
 - **Developmental asset:** May contribute to positive development of health and quality of life

OREBRO UNIVERSITY

Is change possible?

**Yesterday is history.
Tomorrow is a suprice.
The present day is a gift.**

Thank you for your attention
